Each flight coupon will be accepted for carriage on the date and flight for which accommodation has been reserved. When flight coupons are issued on an "open date" basis, accommodation will be reserved upon application subject to the availability of space. The place and date of issue are set forth on the flight coupons. Any extension of ticket validity will be in accordance with carrier's tariffs.

Exception 1: If the ticket is for or includes an excursion or other special fare having a shorter period of ticket validity than indicated above, such shorter period of validity shall apply only in respect to such excursion or special fare transportation.

Exception 2: If no portion of the ticket is used, the period of validity will be one year from date of issuance of the ticket.

(2) Periods of validity

Tickets expire at midnight on the date of expiration of ticket validity, except that such period of validity will be extended by carrier without additional collection of fare as follows:

- (a) For no longer than seven days beyond the original limit when a passenger who holds a ticket valid for one year is unable to obtain space at time of application to carrier.
- (b) For no longer than thirty days beyond the original limit when carrier is unable to provide previously confirmed space; or a flight is cancelled or postponed during the period of validity; a scheduled stop which is either a stopover or destination for the passenger is omitted; carrier substitutes a different class of service, or causes a passenger to miss a connection, or fails to operate a flight reasonably according to schedule.
- (c) Until the date when the passenger, who is prevented from traveling within the period of validity of his ticket by reason of illness, becomes fit to travel according to a medical certificate, or until the first service of

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

the class for which the fare has been paid on the carrier on which space is available after such date from the point where the journey is resumed or from the last connecting point. Provided, that when the flight coupons remaining in a ticket having a one year validity involve one or more stopovers, the validity of such ticket will be extended for not more than 3 months from the date shown on such certificate. In such circumstances carrier will extend similarly the period of validity of tickets of persons traveling with an incapacitated passenger. Rules governing special and promotional fares which specifically exclude the application of rule 65 (ticket extension of ticket validity) are making reference to this subparagraph.

- (d) In the event of the death of a passenger during a journey, the tickets of the persons who are accompanying the deceased passenger may be changed, either by waving any minimum stay requirements or by the extending the validity of said tickets by no more than 45 days from the date of death. In the event of the death of an immediate family member of a passenger whose journey has started, the validity of their tickets and of those of the members of their immediately family travelling with them may be changed in the same way. Any changed mentioned above may only be made after receipt of a valid death certificate. Any extension cannot exceed forty-five (45) Days as from the date of death.
- (e) A miscellaneous charges order issued without definite date of passage must be presented for a ticket within one year from the date of issue; otherwise it will not be honored for a ticket.

(C) Coupon sequence and production of the ticket

- (1) A ticket is only valid for the carriage indicated thereon, from the departure point to the arrival point via any stopover scheduled when the ticket was purchased. The fare that the passenger paid corresponds to the route stated on the ticket and is an integral part of the contract of carriage concluded between the carrier and the passenger. The fare is only valid if the flights are take in the booked sequence otherwise the fare will be recalculated based on the actual flight routing.
- (2) The fare paid shall only be applicable when international travel commences in the country of

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

the point of origin shown on the ticket; if international travel actually commences outside the country of the ticketed point of origin, the fare must be reassessed from the point where international travel actually began. For example, if a ticket is purchased at the Euro fare for travel Athens/Zurich/Montreal, and the passenger actually commences travel in Zurich instead of Athens, the fare must be reassessed at the Zurich/Montreal, Swiss Franc level.

- (D) Absence, loss or irregularities of ticket  
Carrier will refuse carriage to any person not in possession of a valid ticket. In case of loss or non-presentation of the ticket or the applicable portion thereof, carriage will not be furnished for that part of the trip covered by such ticket or portion thereof until the passenger purchases another ticket at the current applicable fare for the carriage to be performed. Carrier will not accept a ticket if any part of it is mutilated or if it has been altered by other than carrier or it is presented without the passenger coupon and all unused flight coupons. Notwithstanding the foregoing, carrier will issue at the passenger's request a new ticket to replace the lost one upon receipt of proof of loss satisfactory to carrier, and if the circumstances of the case in carrier's opinion warrant such action; provided, that the passenger agrees, in such form as may be prescribed by carrier, to indemnify carrier for any loss or damage which carrier may sustain by reason thereof.
- (E) Non-transferability
- (1) A ticket is not transferable, but carrier shall not be liable to the person entitled to be transported or to the person entitled to receive such refund for honoring or refunding such ticket when presented by someone other than the person entitled to be transported thereunder or to a refund in connection therewith.
  - (2) If a ticket is in fact used by any person other than the person to whom it was issued, with or without the knowledge and consent of the person to whom it was issued, carrier will not be liable for the destruction, damage, or delay of such unauthorized persons baggage or other personal property arising from or in connection with such unauthorized use.
  - (3) If a ticket is in fact used by any person other than the person to whom it was issued, with or without the knowledge and consent of the person to

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

whom it was issued. Carrier will not be liable for the death or injury of such unauthorized person arising from or in connection with such unauthorized use (see note).

Note: Except to the extent provided in Rule 55 with respect to tariff C.A.B. no. 782 issued by Airline Tariff Publishing CO., agent, rules affecting liability of carriers for personal injury or death are not permitted to be included in tariffs filed pursuant to the laws of the United States, and this rule is included herein as part of the tariff filed with governments other than the United States and not as part of tariff C.A.B. no. 782 issued by Airline Tariff Publishing CO., inc., filed with the Department of Transportation.

- (G) Waiver of minimum/maximum stay requirements
- (1) When a ticket is sold at a special fare containing a minimum stay requirement, the minimum stay requirement will be waived on presentation of a death certificate or copy thereof for passengers who are:
    - (a) Members of the immediate family of a passenger who dies en route, or
    - (b) Other persons actually accompanying a passenger who dies en route.
  - (2) If a passenger holding a special fare ticket with a minimum stay requirement desires to commence the return before the expiry of the minimum stay period owing to the death of an immediate family member not accompanying the passenger, and a death certificate or copy thereof is not immediately available, the passenger will be entitled to a refund of the additional amounts paid to permit earlier return, on presentation of a death certificate attesting to the death of such family member after the passenger's commencement of travel.
  - (3) This paragraph (g) will apply in all cases, notwithstanding the exclusion of Rule 65 (tickets-extension of ticket validity) in rules governing special and promotional fares. That exclusion shall be deemed a reference to subparagraph (B)(2)(c) of this rule.
- (H) Acceptance of tickets
- (1) All airlines operating to, from or through the Philippines, including off-line carriers with sales offices and/or general sales agents in the Philippines, are hereby prohibited from importing into the Philippines airline tickets issued

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

outside the Philippines for international air transportation of passengers originating in the Philippines.

- (2) All airlines operating to/from and/or through the Philippines shall ascertain whether or not the tickets for international air transportation of passengers originating in the Philippines, presented by such passengers at the airline check-in counters at the manila international airport, have been issued outside the Philippines. If so, said airlines shall not honor such tickets.
- (3) Back to back/throwaway/hidden ticketing carrier specifically prohibits the practices commonly known as "back to back ticketing": the purchase and use of two or more tickets issued and one-way/Round Trip fares, or combination of two or more one-way and Round Trip fares end to end on the same ticket for the purpose of circumventing minimum stay requirements. "throwaway ticket"-the usage of Round Trip fares for One Way travel; "hidden city ticketing"-the purchase of a fare from a point before the passenger's actual origin to a point beyond the passenger's actual destination.

(I) Change requested by a passenger

- (1) If a passenger wishes to change all or part of their journey, they must first make contact with the carrier. The fare will be recalculated and the passenger will then have the possibility of accepting the new price or keeping the original carriage, as shown on the ticket. If a passenger has to change their ticket due to a reason that constitutes force majeure, as defined in Rule 1 (definitions) and for which they will be requested to provide proof, the passenger must, as soon as possible, make contact with the carrier, which shall use reasonable efforts to ensure carriage to the next stopover or to the passenger's destination without any change in fare.
- (2) If a passenger changes their journey without the carrier's agreement, the carrier shall adjust the fare in light of this change. The passenger must then pay the difference between the fare that corresponds to the journey purchased and the price of the new journey. If the new fare is less than the previous fare, the carrier shall refund the difference, however, the old coupons, in any event, shall no longer have any value.
- (3) Each ticket flight coupon shall be valid for carriage in the class specified on the ticket, on the date and for the flight that corresponds to the reservation made. If a coupon is originally

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

issued without reference to a reservation, a reservation may be made subsequently, in accordance with the fares in force and within the limit of seats available on the flight requested.

- (J) Identification of the carrier  
The carrier identification may be shown as an abbreviation on ticket, using its designator code (as defined in Rule 1 (definitions) or in any other form. The carrier's address is deemed to be that of its registered office or principal place of business.

- B. Payment outside the country of commencement of transportation

  - 1. Applicable for the U.S.A.  
The bankers rates referred to in the payment rules means the unit rate published each Tuesday in the wall street journal under heading 'foreign exchange'. This rate will be applicable from wednesday of each week up to and including Tuesday of the following week. When a national holiday falls on Monday, foreign exchange rates do not appear in the Tuesday edition of the wall street journal. In such exceptional cases, the previous week's rates are used through wednesday instead of Tuesday and the wednesday edition of the wall street journal will be used for the period Thursday through Tuesday.
  - 2. Applicable for Canada

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

The bankers buying rate or bankers selling rates means the unit rate published in the Toronto globe and mail Friday edition each week, as the foreign exchange mid market rate in Canadian funds.   4. If an en-route reassessment of the fare results in a refund, the amount of the refund shall be converted using the banker's rate applicable at the date of the refund, except when original payment has been made in a currency other than the currency of the country of commencement of transportation, refunds in the same currency as originally tendered will be made at the exchange rate used for the original payment.
  5. If an en-route reassessment of the fare results in an additional collection, the amount of additional collection shall be converted using the banker's selling rate applicable at the date of original collection.

Note: LX will pay the refund in the same form (i.e. cash, check, credit card etc.) That was used in purchasing the original transportation document. LX, in making the refund, will observe any refund restriction that may be published in the applicable rules governing the original transportation document. Further, LX will observe a government or LX restriction imposed on the conversion and refund of currencies outside of the country whose currency was originally collected.

- (e) Time limits on cancellations and charges for late cancellations will be applicable to revised routings requested by passenger.

(B) Involuntary revised routings

In the event carrier cancels a flight, fails to operate according to schedules, substitutes a different type of equipment or different class of service, or is unable to provide previously confirmed space, or the passenger is refused passage or removed, in accordance with rule 25 herein, carrier will either:

## Rule 85 Schedules, Delays and Cancellations

### (A) Schedules

The times shown in timetables or elsewhere are approximate and not guaranteed, and form no part of the contract of carriage. Schedules are subject to change without notice and carrier assumes no responsibility for making connections.   - (v) Passengers on free or reduced fares not directly or indirectly available to the public, e.g. ID and AD tickets

- (2) When a flight is delayed or cancelled (including before the day of travel), an airline has minimum obligations to passengers. The obligations depend on whether the disruption is:
- (a) within the control of the airline, such as staff issues, aircraft preparation activities, decisions to consolidate flights because of low demand and disruptions due to routine and scheduled maintenance (including any work to address issues found during that maintenance).
  - (b) within the airline's control but required for safety. In this category "required for safety" means "required by law to reduce risk to passengers". Generally, these are situations in which an airline must delay or cancel a flight to follow rules put in place to make sure the flight and people on board are safe. These rules include the Canadian Aviation Regulations and its standards, or
  - (c) Outside the airline's control, such as security incidents, medical emergencies, bad weather or orders from applicable authorities.
- (3) Obligations in situations within the airline's control
- (a) Standards of treatment
    - If LX does not notify passengers of a flight disruption at least 12 hours before the scheduled departure time, it will provide passengers with certain amenities, free of charge, when it cancels a flight or when a flight delay reaches two hours. These are described below.
      - (i) LX will provide a meal voucher and means of communication.
      - (ii) In the event the passenger will wait overnight for the new flight, LX will provide a voucher for hotel accommodation in the vicinity of the airport, if the airport is not within a reasonable distance to the passenger's residence.
      - (iii) LX may limit or refuse to provide the standards of treatment if doing so would further delay the passenger.
  - (b) Alternate travel arrangements
    - when a flight is cancelled, or once a flight delay has reached three hours, LX will offer to make alternate travel arrangements free of charge. The passenger may also choose to continue to wait for their original flight.
      - (i) LX will provide the passenger with a confirmed reservation on the next available flight operated by LX or that is operated by another carrier with which they have a commercial agreement. The new flight:
        - May take any reasonable route out of the same airport to the passenger's final destination; and

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- Must depart within nine hours of the departure time on the passenger's original ticket.
  - (ii) If LX cannot meet the obligations in (3)(b)(i) above, it must provide the passenger with a confirmed reservation as soon as possible, on a flight that is operated by any carrier on any reasonable route out of the same airport to the passenger's destination.
  - (iii) If LX cannot provide the reservation from the same airport within 48 hours of the original departure time, LX will book the passenger from a nearby airport. LX will also provide the passenger with transportation to that airport, free of charge.
- (c) Refund  
If the alternate travel arrangements an airline offers do not meet the passenger's needs, the passenger is entitled to a refund of the unused portion of the ticket and all unused ancillary charges. However, if the disruption has caused the passenger's travel to no longer serve a purpose and the passenger is no longer at the point of origin on their itinerary, LX will provide the passenger with a confirmed reservation back to the point of origin on the ticket and refund the full amount of the ticket. Refund will be made to the person who purchased the ticket, in the same form of payment the ticket or additional service was purchased. In any other case, LX will refund the unused portion of the ticket, including any unused ancillary services that were charged, pursuant to rule 90 (Refunds).
- (d) Compensation
- (i) If LX informs the passengers 14 days or less before their original departure time, they will compensate the passengers for the inconvenience of the disruption. The compensation is determined by the time of arrival at destination compared to the arrival time on their original itinerary and is as follows:
    - \$400 if the passenger arrives three or more hours late, but less than six hours
    - \$700 if the passenger arrives six or more hours late, but less than nine hours; and
    - \$1000 if the passenger arrives nine or more hours late.
  - (ii) Passengers who choose to take a ticket refund instead of alternative travel arrangements must still be compensated for inconvenience. The compensation is \$400.
- (e) Responding to a claim  
A passenger has one year to make a compensation claim with LX from the date the flight delay or

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

cancellation happened. LX has 30 days to respond by issuing a payment or saying why it believes compensation is not owed.

- (i) LX will offer compensation in monetary form; this can include cash, cheque, bank drafts, and electronic bank transfers.
- (ii) LX may offer another form of compensation, e.g., vouchers, but only if:
  - It tells the passenger the monetary amount they are entitled to;
  - The voucher has no expiration date;
  - It tells the passenger in writing the value of the other form of compensation it is offering;
  - The other form is greater in value than the monetary amount the passenger is entitled to;
  - The other form of compensation has no expiry date; and
  - The passenger confirms in writing they know that monetary compensation is available, but they choose the other form of compensation.

(f) Communicating with passengers

LX will give passengers key information, including the reason for the delay or cancellation, available compensation, standards of treatment, and their rights and options for making a complaint. During flights delays, LX will provide regular flight status updates until a new departure time or flight arrangement has been confirmed.

(4) obligations in situations within the airline's control, but required for safety

If an airline delays or cancels a flight for reasons within its control, but required for safety, it does not have to compensate passengers as defined in section 3(d)

above. All other obligations such as rebooking and care referenced above will be provided to the passenger including section 3(C) Refund.

(5) obligations in situations outside the airline's control

If an airline delays or cancels a flight for reasons outside its control, it does not have to compensate affected passengers, and the minimum standards of treatment do not apply. However, LX will follow the communication requirements described in (3)(f) above. LX will also make alternative travel arrangements for passengers as follows.

(a) Alternate travel arrangements

LX will ensure that the passengers complete their journey. If a flight is cancelled or once a flight delay has reached three hours, LX will offer to make alternate travel arrangements for passengers free of charge.

- (i) LX will provide the passenger with a confirmed reservation on the next available flight operated by LX or that is operated by another carrier with which they have a commercial agreement. The new flight:

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- May take any reasonable route out of the same airport to the passenger's final destination; and
- Must depart within 48 hours of the end of the event that caused the delay or cancellation.

(ii) If LX cannot meet the obligations in (5)(a)(i) above, then LX will provide the passenger with a confirmed reservation, on a flight that is operated by any carrier on any reasonable route out of the same airport to the passenger's destination that departs within 48 hours of the original departure time on the ticket.

(iii) If LX cannot provide the reservation from the same airport, LX will book the passenger as soon as possible from a nearby airport. LX will also provide the passenger with transportation to that airport, free of charge.

(b) Refunds

If LH cannot provide a confirmed reservation in accordance with section 5(a) above, the carrier will, at the passenger's choice either (a) provide a refund for any unused portion of the ticket, including any unused ancillary services, or (b) if the disruption has caused the passenger's travel to no longer serve a purpose and the passenger is no longer at the point of origin on their itinerary, LH will provide the passenger with a confirmed reservation back to the point of origin on the ticket and refund the full amount of the ticket.

Refund will be made to the person who purchased the ticket, in the same form of payment the ticket or the additional service was purchased. In any other case, LH will refund the unused portion of the ticket, or the full ticket in unused, including any unused ancillary services that were charged to rule 90 (Refunds)

(C) Cancellations

- (1) Carrier may, without notice, substitute alternate carriers or aircraft.
- (2) Carrier may, without notice cancel, terminate, divert, postpone or delay any flight or the further right of carriage or reservation of traffic accommodations and determine if any departure or landing should be made, without any liability except as further defined in this Rule 85:

  - (c) Because of any government regulation, demand or requirement; or
  - (d) Because of shortage of labor, fuel or facilities, or labor difficulties of carrier or others.
- (3) Carrier will cancel the right or further right of carriage of the passenger and his baggage upon the refusal of the passenger, after demand by carrier, to pay the fare or the portion thereof so demanded, or to pay any charge so demanded and assessable with respect to the baggage of the passenger, without being subject to any liability therefor except to refund, in accordance herewith, the unused portion of the fare and baggage charge(s) previously paid, if any.

## Rule 87 Denied Boarding Compensation

Part I: Denied boarding compensation (Applicable for flights originating in the U.S.A.)

(A) Definitions

For the purpose of this rule (except as otherwise specifically provided herein):

Airport means the airport at which the direct, or connecting flight on which the passenger holds confirmed reserved space is planned to arrive some other airport serving the same metropolitan area, provided that transportation to the other airport is accepted (i.e. used) by the passenger.

Alternate transportation is air transportation (by an airline licensed by the Department of Transportation) or other transportation used by the passenger which, at the time the arrangement is made, is planned to arrive at the passenger's next scheduled stopover (of 4 hours or longer) or if none, at the airport of final destination no later than 4 hours after the passenger's originally scheduled arrival time.

Carrier means:

- (1) A direct air carrier except a helicopter operator, holding a certificate issued by the department of transportation pursuant to section 401(d)(1), 401(d)(2), 401(d)(5), or 401(d)(8) of the act, or an exemption from section 401(a) of the act, authorizing the scheduled foreign air transportation of persons, or
- (2) A foreign route air carrier holding a permit issued by the Department of Transportation pursuant to section 402 of the act, or an exemption from section 402 of the act, authorizing the scheduled foreign air transportation of persons.

Comparable air transportation means transportation provided to passenger at no extra cost by a carrier as defined above.

Confirmed reserved space means space on a specific date and on a specific flight and class of service of a carrier which has been requested by a passenger and which the carrier or its agent has verified, by appropriate notation on the ticket or in any other manner provided therefore by the carrier as being reserved for the accommodation of the passenger.

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

Stopover means a deliberate interruption of a journey by the passenger, scheduled to exceed four hours, at a point between the place of departure and the place of final destination.

The sum of the values of the remaining flight coupons means the sum of the applicable one-way fares including any surcharges and air transportation taxes, less any applicable discounts.

Volunteer means a person who responds to carrier's request for volunteers and who willingly accepts carrier's offer of compensation, in any amount, in exchange for relinquishing his confirmed reserved space. Any other passenger denied boarding is considered for the purposes of this rule to have been denied boarding involuntarily, even if he accepts denied boarding compensation.

- (B) Conditions for payment of compensation  
Subject to the exception in this subparagraph, carrier will tender to passenger the amount of compensation specified in paragraph (2) when:
- (1) Passenger holding a ticket for confirmed reserved space presents himself for carriage at the appropriate time and place having complied fully with carrier's requirements as to ticketing, check-in (see Rule 60 herein) and reconfirmation procedures and being acceptable for transportation, under carrier's tariff, and
  - (2) The flight for which the passenger holds confirmed reserved space is unable to accommodate the passenger and departs without him/her.  
Exception: The passenger will not be eligible for compensation if
    - (i) The flight upon which the passenger holds confirmed reserved space is unable to accommodate him because of:
      - (ii) Cancellation of the flight; or
      - (iii) Substitution of equipment of lesser capacity when required by operational and/or safety reasons; or on an aircraft with a designed passenger capacity of 60 or fewer seats. The flight for which the passenger hold confirmed reserved space is unable to accommodate that passenger due to weight/balance restrictions when required by operational or safety reasons.
  - (3) Passengers without confirmed reservations.
  - (4) Passengers who have not presented themselves for check-in on time.

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- (5) Passengers on free or reduced fares not directly or indirectly available to the public, e.g. ID/DM and ad tickets.
- (6) Passengers refused under Rule 25.
- (7) Passenger is accommodated on the flight for which he holds confirmed reserved space, but is offered accommodations or is seated in a compartment of the aircraft other than that specified on his ticket, provided that a passenger seated in a section for which a lower fare is charged shall be entitled to an appropriate refund.
- (8) If the carrier arranges comparable air transportation, or other transportation used by the passenger at no extra cost to the passenger, that at the time such arrangements are made is planned to arrive at the passenger's next stopover or, if none, final destination within 1 hour after the scheduled arrival time of the passenger's original flight or flights.

(C) Boarding priority

Passengers holding confirmed reservations will always be boarded before:

- (2) Any passenger not entitled to confirmed reservation.
- (3) Passengers holding free or reduced fare tickets entitled to firm booking not available directly or indirectly to the public issued by other airlines.

outstations.

(D) Written explanation of denied boarding compensation and denied boarding priorities

Compensation for denied boarding - If you have been denied a reserved seat on a carrier, you are probably entitled to monetary compensation. This notice explains the airline's obligation and passenger's rights in the case of an oversold flight, in accordance with regulations of the U.S. department of transportation.

(E) Volunteers and boarding priorities

If a flight is oversold (more passengers hold confirmed reservations than there are seats available), no one may be denied boarding against his/her will until airline personnel first ask for volunteers who will give up their reservations willingly, in exchange for a payment of the airline's choosing. If there are not enough volunteers, other passengers may be denied boarding involuntarily in accordance with the following boarding priority of LX:

Passengers holding confirmed reservations who have fully paid the fare including discounted fares such as for children, and fares approved by the U.S. Department of Transportation for publication and sale to the general public, will be boarded in the sequence in which they have presented themselves, properly documented for the flight and at the appropriate time for check-in before:

(1) Any passengers not holding confirmed reservations.

(2) Any passengers who are not entitled to confirmed reservation.

(3) Passengers holding free or reduced fare tickets entitled to a firm booking, issued by other airlines not available directly or indirectly to the travelling public.

(4) Passenger holding free or reduced fare tickets entitled to a firm booking, issued by LX, not available directly or indirectly to the travelling public.

(5) The following passengers cannot be left behind:

-Swiss Hon Circle Members

-VIP

-Senator and Frequent Traveller Members, Star Gold and Silver Members

-Commercially Important Passengers

-Unaccompanied Children (12 Years and Under)

-Passengers with Disabilities

-Families with Small Children

-Elderly Passengers

-Inadmissible/Deportees

-Passengers under 18 years travelling alone

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- Passengers covered by a special message
- Station Based Security Officers.
- Any DM or ID Tickets with an OSI Remark Not to Be Offloaded
- Deadhead crew
- Ground staff needed for emergency repairs at outstations.

- (F) Compensation for involuntary denied boarding - If you are denied boarding involuntarily, you are entitled to a payment of denied boarding compensation from the airline unless:
- (1) You have not fully complied with the airline's ticketing, check-in and reconfirmation requirements or you are not acceptable for transportation under the airline's tariff filed with the Department of Transportation or under the airlines usual rules and practices, or
  - (2) You are denied boarding because the flight is cancelled; or
  - (3) You are denied boarding because smaller capacity aircraft was substituted for safety or operational reasons; or
  - (4) You are denied boarding on an aircraft with a designed passenger capacity of 60 or fewer seats, the flight for which you were confirmed reserved space is unable to accommodate you due to weight/balance restrictions when required by operational or safety reasons.
  - (5) You are offered accommodations in a section of the aircraft other than that specified in your ticket at no extra charge. (a passenger seated in a section for which a lower fare is charged must be given an appropriate refund.)
- (G) Amount of compensation payable  
Subject to the provisions of paragraph (1) of this rule, carrier will tender liquidated damages at the rate of 200 percent of the fare to the passenger's destination or first stopover, with a USD 650 maximum if the carrier offers alternate transportation that is planned to arrive at the passenger's destination or first stopover more than one hour but less than four hours after the planned arrival time of the passenger's original flight; and 400 percent of the fare to the passenger's destination or first stopover, with a USD 1300 maximum. If the carrier does not offer alternate transportation that is planned to arrive at the passenger's destination or first stopover less than four hours after the planned arrival time of the passenger's original flight. "Alternate transportation" is air transportation with a confirmed reservation at no additional cost (by any scheduled

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

airline licensed by DOT), or other transportation accepted and used by the passenger in the case of denied boarding.

- (H) Method of payment - The airline must give each passenger who qualifies for denied boarding compensation, a payment voucher or cash for the amount specified above, on the day and place the involuntary denied boarding occurs. However, if the airline arranges alternate transportation for the passenger's convenience that departs before the payment can be made, the payment will be sent to the passenger within 24 hours. The air carrier can offer free or discounted transportation in place of cash payment, in that event, the carrier will disclose all material restrictions on the use of the free or discounted transportation before the passenger decides whether to accept the transportation in lieu of cash or check payment. The passenger may insist on the cash/check payment or refuse all compensation and bring legal action.
- (I) Passenger's options - Acceptance of the compensation (by endorsing the voucher within 30 days) relieves the carrier from any further liability to the passenger caused by its failure to honor the confirmed reservations; however, the passenger may decline payment and seek to recover damages in a court of law or in some other manner.

- (1) In case of refund, whether due to failure of carrier to provide the accommodation called for by the ticket, or to voluntary change of arrangements by the passenger, the conditions and amount of refund will be governed by carrier's tariffs.
- (2) Except as otherwise provided in paragraph (F) of this rule, refund by carrier for an unused ticket or portion thereof or miscellaneous charges order/ancillary service fees will be made to the person named as the passenger in such ticket or miscellaneous charges order unless at the time of purchase the purchaser designates on the ticket or miscellaneous charges order/ancillary service fees another person to whom refund shall be made, in which event refund will be made to persons so designated and only upon delivery of the passenger coupon and all unused flight coupons of the ticket or miscellaneous charges order. A refund made in accordance with this procedure to a person representing him as the person named or designated in the ticket or miscellaneous charges order will be considered a valid refund and carrier will not be liable to the true passenger for another refund.
  - Exception 1: Refund in accordance with paragraph (e) below of tickets for transportation which have been issued against a credit card will be made only to the credit card account of the person to whom such credit card has been issued.
  - Exception 2: Refund of a ticket which has been issued pursuant to a prepaid ticket advice (PTA) will be made to the person who paid carrier for the ticket.

Carrier: Swiss - LX

therefrom by another carrier or conveyance.

- (B) Currency  
All refunds will be subject to government laws, rules, regulations or orders of the country in which the ticket was originally purchased and of the country in which the refund is being made. Subject to the foregoing provisions, refunds will be made in the currency in which the fare was paid, or in lawful currency of the country of the carrier making the refund or of the country where the refund is made, or in the currency of the country in which the ticket was purchased in an amount equivalent to the amount due in the currency in which the fare or fares for the flight covered by the ticket as originally issued was collected.
- (C) Special handling by carrier  
Carrier will make all or any individual refunds through its general accounting offices or regional sales or accounting offices, and will require prior written applications for refunds to be prepared by passenger on special forms furnished by carrier.
- (1) For Canada only - all refunds required to be provided under APPRs will be provided within 30 days after the day on which the carrier becomes obligated to pay.
- (D) Involuntary refunds  
See also Rule 80 (Involuntary Revised Routings) and Rule 87 (US/Rule 89 (Canada) (Denied Boarding Compensation)). For the purpose of this paragraph, the term 'involuntary refund' shall mean any refund to a passenger who is prevented from using the carriage provided for in his ticket because of cancellation of flight, inability of carrier to provide previously confirmed space, substitution of a different type of equipment or different class of service by carrier, missed connections, postponement or delay of flight, omission of a scheduled stop, or removal or refusal to carry under conditions prescribed in Rule 25. Notwithstanding any provision or rule to the contrary, passengers shall not be entitled to a refund under this section if they have been denied boarding or had a flight cancelled pursuant to rule 25, (A)(2), rule 25, (B) subsections 1 through 4, rule 25, C(2), C(4), rule 25, (F) all subsections 1 through 11, or rule 45, (B)(1). Except as noted above Involuntary refunds will be computed as follows:
- (1) when no portion of the trip has been made, the amount of refund will be equal to the fare paid.

- (a) Either an amount equal to the one-way fare

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

less the same rate of discount, if any, that was applied in computing the original one-way fare (or on round or Circle Trip tickets, one-half of the Round Trip fare) and charges applicable to the unused transportation from the point of termination to the destination or stopover point named on the ticket or to the point at which transportation is to resume, via:

- (i) The routing specified on the ticket, if the point of termination was on such routing; or
  - (ii) The routing of any carrier operating between such points, if the point of termination was not on the routing specified on the ticket; in such case the amount of refund will be based on the lowest fare applicable between such points; or
- (b) The difference between the fare paid and the fare for the transportation used, whichever is higher.
- Exception: When a passenger holding a ticket for carrier for a higher class of service between an origin and a destination is required by carrier to use a lower class of service for any portion of such carriage, the amount of refund will be as follows:
- (1) For one-way tickets: the difference between the fare for the higher class service and the fare for the lower class of service between the points where the lower class service is used;
  - (2) For Round Trip, Circle Trip or open-jaw tickets: The difference between 50 percent of the round trip fare for the higher class of service and 50 percent of the Round Trip fare for the lower class of service between the points where the lower class of service is used.

For the purpose of this exception fares are published in the following descending order of classes of service.

- (a) First class fares.
  - (b) Business class fares.
  - (c) Economy class, tourist class, or coach class fares.
- (3) The service charge provided for in Rule 60 herein, will not be assessed, and any communication expenses paid by the passenger in the accordance with Rule 60 will be refunded, or if such expense at the time has not been collected by carrier, its

Tariff: LX1 - CTA No. 496 DOT No. 782

collection will be waived, except as otherwise provided in Rule 25.

- (E) Voluntary refunds  
for the purpose of this paragraph, the term "voluntary refund" shall mean any refund of a ticket or portion thereof other than an involuntary refund, as described in paragraph (d) of this rule. Voluntary refunds shall be computed as follows:
- (1) If no portion of the ticket has been used, refund will be the full amount of the fare paid, less any cancellation penalty, applicable service charge and communication expenses, or
  - (2) If a portion of a ticket has been used, refund will be made in an amount equal to the difference, if any, between the fare paid and the applicable fare between the points between which the ticket has been used, less any applicable service charge and communication expenses.
  - (3) When the refunding of any portion of a ticket would result in the use of such ticket between any points where the carriage of traffic is prohibited the refund, if any, will be determined as if such ticket had been used to a point beyond which would not result in the violation of carrier's operating rights or privileges. The passenger will be refunded the difference between the fare paid from the point of origin to such farther point and the total fare paid, less any applicable charges.
  - (4) A penalty for voluntary cancellation shall not apply and the total amount paid shall be refunded if such cancellation is made after an increase in the fare is made applicable to the passenger's ticket between the time of the initial payment and the date of travel.
  - (5) Service charges
    - (a) LX will introduce a new refund service charge applicable to all voluntary refund transactions made via ticket office, direct sales service centers, any travel agent refund applications addressed to and processed by any LX office and any retroactive corrections of travel agency refunds noticed by LX revenue accounting audit. The charge will be CAD 30/USD 30/CHF 25/ EUR 20 per ticket.

LX irregularity and involuntary refunds  
following ec261

- (b)
- (c) Passengers requesting acceptance/reissuance of tickets/MCOs must do so no later than the date of expiration of the document. A ticket is considered as expired one year after the date of issue or one year after commencement of travel, whichever is later. An MCO is considered expired one year after date of issue. In the event that expired documents are presented by the passenger to be used as part or full payment for a new ticket, they are subject to a handling charge. The handling charge is 10 percent of the refundable amount, minimum CHF 50 or the equivalent per document, (conversion with BSR, for offices outside Switzerland.) Against each expired document (tickets/MCOs) An MCO must always be issued and the handling charge must be deducted from it prior to applying the refundable amount towards a new ticket or MCO.

(F) Lost ticket  
the following provisions will govern refund of a lost ticket or unused portion thereof:

- (1) When a lost ticket or portion thereof is not found, refund as stipulated will be made upon receipt of proof of loss satisfactory to carrier and after receipt of written request for refund from the passenger. Exception: Refund will not be made in less than 6 months after receipt of proof of loss satisfactory to carrier.
- (2) Refund will be made on one of the following bases, whichever is applicable:
  - (a) If no portion of the ticket has been used, and:

  - (b) If a portion of the ticket has been used, and
    - (i) The passenger has not purchased a replacement ticket, refund will be made in an amount equal to the difference, if any, between the fare paid and the applicable fare between the points between which the ticket has been actually used:
    - (ii) The passenger has purchased a replacement ticket, the carrier which issued the original ticket will refund the fare paid for such replacement ticket.
  - (3) The foregoing provisions shall also apply to lost miscellaneous charges orders, deposit receipts and excess baggage tickets.

100.00	150.00

Note: LX will assess this handling charge for refunding or replacing, wholly or partly, lost, missing, mislaid, stolen passenger tickets, miscellaneous charges orders or excess baggage tickets on a per-case basis, not per each ticket MCO. A case means a request submitted:

- (a) For an individual passenger, and involving one or more ticket(s) MCO(s), excess baggage ticket(s).
- (b) At the same time (needing only one telex message to the issuing office), for a family or group of passengers travelling together and involving one or more ticket(s), MCO(s), excess

Where LX is not the selected carrier on the interline itinerary but is a participating carrier that is providing transportation to the passenger based on the ticket issued the carrier will apply as its own the baggage rules of the selected carrier throughout the interline itinerary.

- (h) Other rules governing treatment of baggage at stopover points, including passengers subject to special baggage allowances or charges, etc.

Rule 130 Fares

(A) General  
 Fares/rules apply for carriage from the airport at the point of origin to the airport at the point of destination and do not include ground transfer service between airport or between airports and city centres except where Rule 35 specifically provides that such ground transfer service will be furnished without additional charge.

(B) Acronyms, sequence of checks, international sales indicators (ISI).  
 List of common acronyms used for fare constructions.  
 (1) List of common acronyms used for fare Construction:

- BHC One Way Back Haul Check
- COM Country of Unit Origin Minimum

(2) Sequence of checks  
 (a) All fare constructions shall be accomplished in NUCs.  
 (b) In applying fare construction checks, the following sequence shall apply to such checks.

Name	Acronym	Applicable Fares
Mileage Checks	TPM/MPM/ EMS/EMA	All
Higher Intermediate Point	HIP	All
One Way Backhaul Check	BHC	OW

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

Return Subjourney Check	RSC	Normal CT,OJ,RT
Local Currency Fare Check	COP	Normal CT, RT

(C) Application

- (1) Fares specified in this tariff between any two points are subject to:
  - (a) The maximum permitted mileage, referred to herein as mileage fares, provided that when a journey exceeds the MPM, the fare must be surcharged in accordance with the procedures for excess mileage surcharges, or;
  - (b) A specified diagrammatic or linear routing, referred to herein as routing fares.
- (2) Applicable fares  
Fares to be assessed for the total journey shall be the applicable fares effective on the date of departure on the first international sector, provided Canada and the USA are considered as one country.
- (3) Arbitrary construction  
Fares published by use of a published arbitrary and a published international gateway fare. These fares are referred to as constructed fares. When construction with arbitraries is used, travel need not be via the point of combination.
- (4) Non-adherence to precedence of through published fares  
Except for the provisions in paragraphs (8) below the combination of two or more fares may be applied between any two points even if the amount results in less than the through published fare in this tariff. All rules of such fares combined must be observed.
- (5) Lowest combination principle (LCP)  
When no through fare is published between any two ticketed points, a fare must be constructed for the purpose of applying fare construction checks. The applicable fare must be constructed using sector fares over an intermediate ticketed point for the class of service used.
  - (a) The fare must be constructed in the direction of travel except that for any fare component into the country of Pricing unit origin, the fare applicable from the country of pricing unit origin shall be used.
  - (b) When the same fare construction point is used both for the outbound and inbound fare, the provisions of end-on combinations apply.
  - (c) When used for fare checks, the constructed fare must be shown on the ticket as "C"/. When used for other purposes, the fares must be shown separately on the ticket.
- (6) Direction of fares

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- (a) Fares shall be assessed in the direction of travel, except that the fare component into the country of Pricing unit origin shall be assessed in the direction from such country, i.e. not in the direction of travel.

Note: Canada and the U.S.A. shall be considered the same country. Denmark, Norway and Sweden shall be considered the same country.

Example: Travel: TRA-MAD-JNB-MAD-FRA  
Construction could be:

FRA-JNB RT 1 Pricing unit

or

FRA-MAD RT 1 Pricing unit

MAD-JNB RT 1 Pricing unit

total of 2 Pricing units

Component JNB-MAD must be in the direction from mad to JNB.

Exception 1: Except for RT pricing units, fare components between Canada and the U.S.A. and between Denmark, Norway and Sweden shall be assessed in the direction of travel.

Exception 2: (Applicable to Open Jaw special fares only) For travel originating and terminating in Europe (where an Open Jaw applies between countries in Europe) for the last fare component into the country of unit destination the fare applicable from the country of unit destination shall be used.

- (b) Fares shall be assessed in the direction of travel, except that when a Pricing unit for a One way subjourney terminates in a country from which a previous Pricing unit has been assessed, the Pricing unit for the One way subjourney into such country shall be assessed from such country, i.e. not in the direction of travel.

Example: Travel ATL-LON-STO-LIS-GLA

Construction: ATL-LON OW 1 Pricing unit  
LON-STO OW 1 Pricing unit  
STO-LIS OW 1 Pricing unit  
GLA-LIS OW 1 Pricing unit

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

total of 4 Pricing units  
fare component LIS-GLA must be in the  
direction of GLA-LIS because the termination  
point (GLA) is in the same country from which  
a previous Pricing unit (LON-STO) was  
assessed.

(C) Application

(7) End on combinations

When two or more fares are combined end-on, the provisions of Round Trip, Circle Trip, one way or Open Jaw journeys, as applicable, shall apply separately to each.

(8) Combination of fares - U.S.A.

(a) Combination of U.S. domestic normal/special fares with international fares to construct a through fare which is less than the published fare from the point of origin to the point of destination is permitted; provided the passenger complies with all conditions of the fares.

Exception 1: The minimum tour price, if any, required by the U.S. domestic fare will not be applicable when the minimum tour price of the international fare is higher.

Exception 2: The advance purchase, if any, required by the U.S. domestic fare will not be applicable when combining with an international fare which has a greater advance purchase for transportation to/from points outside the U.S.A./Canada/Mexico/Bermuda/Bahamas/west Indies.

Exception 3: The requirement of ticketing within a specified time after reservations are made, if any, required by the U.S. domestic fare will not be applicable when combining with international fares for transportation to/from points outside the U.S.A./Canada/Mexico/Bermuda/Bahamas/west Indies.

(b) The maximum permitted mileage shall apply from the gateway used for fare Construction/combination.

(c) Travel must be via the fare combination point(s).

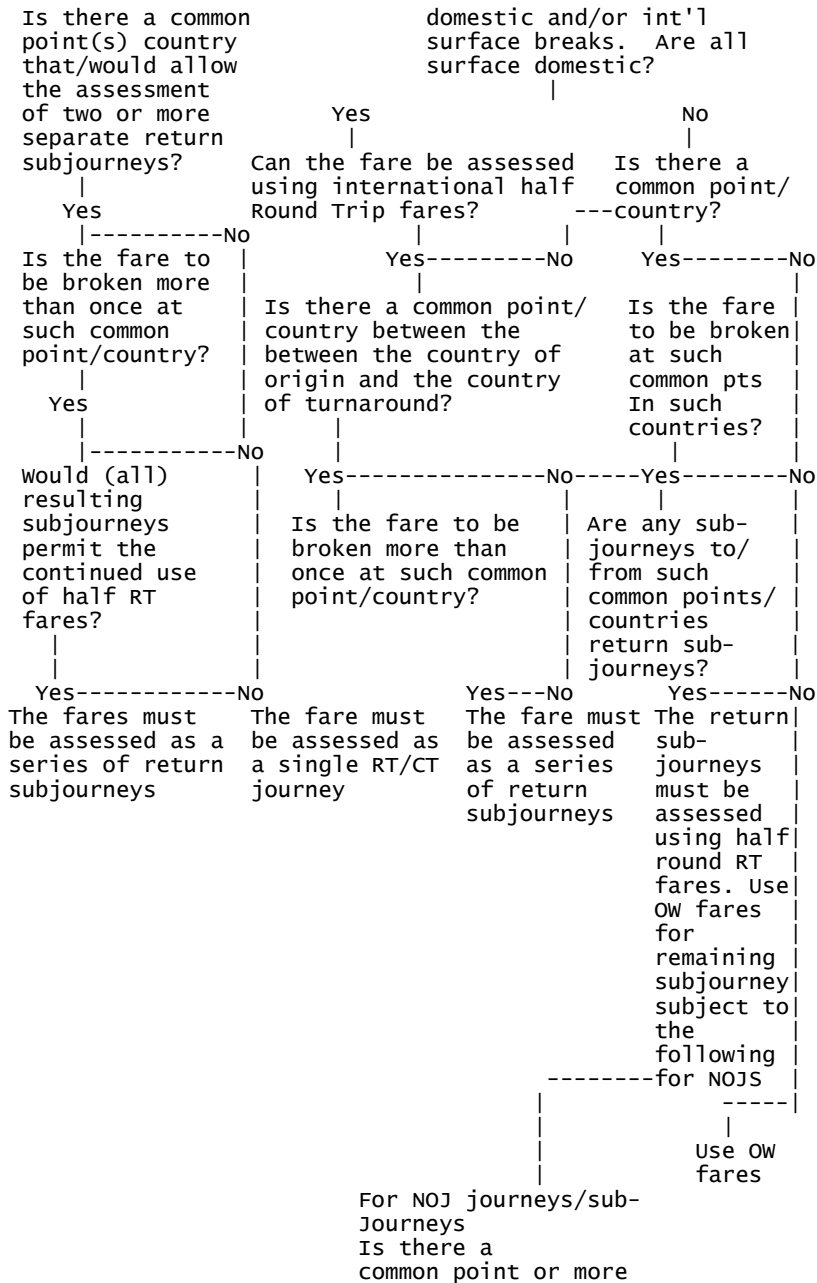

Tariff: LX1 - CTA No. 496 DOT No. 782  
 Carrier: Swiss - LX

- (9) When fares are expressed as a percentage of another fare and different percentages apply on a journey, the following rule applies.
    - (a) Apply the percentage to the base fare to establish the fare level as an amount
    - (b) Use such fare for the applicable of all fare Construction rules
      - Example: journey A-B-C-d-a children's fares
        - A-B 75 percent of adult fare
        - A-C 50 percent of adult fare
        - B-C 67 percent of adult fare
        - A-d 50 percent of adult fare
      - (i) Calculate amounts resulting from application of above percentages.
      - (ii) Apply HIP/CTM etc. Rules using the resultant levels.
  - (10) Fare construction must be via the itinerary of the passenger. The addition of points not on the passenger's itinerary is not permitted.  
 Exception: Constructions using add-on amounts.
  - (11) All published fares governed by this tariff and add fares constructed in accordance with the tariff are applicable only when compliance with the provisions governing travel via a higher created intermediate point (paragraph f3).  
 Mileage routings (see maximum permitted mileage tariff no. MPM-1, C.A.B. no. 424 NTA(A) no. 239) May be applied to any published or constructed fares; however, if a diagram on linear routing is specified in connection with a fare, such routing must be observed to that portion of the transportation covered by that fare.
- (D) Defining journey or Pricing unit concept
- (1) The fare for a journey (excluding side trips assessed separately) shall be the lowest of:
    - (a) A single Pricing unit for the journey, or
    - (b) Any series of end-on combined Pricing units, which collectively comprise the journey being traveled.
  - (2) To determine the fares for 1) above using normal fares refer to the flow chart below:

Normal Fare Flow Chart

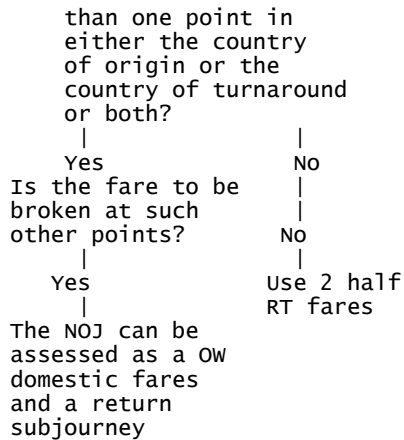

Tariff: LX1 - CTA No. 496 DOT No. 782  
 Carrier: Swiss - LX

Tariff: LX1 - CTA No. 496 DOT No. 782  
 Carrier: Swiss - LX

General Notes:

1. If for pricing purposes the journey is changed (e.g. Closing surface gap or adding a sector that creates a surface gap) then the new journey will determine which path of the flow chart should be taken.
2. For end-on combination of normal and special fares, completely separate the special and normal fare and assess the normal fare subjourney according to the flow chart.
3. The flow chart does not apply for local combination of normal and special fares - refer to the special fares rule.

(3) (a) If the journey fulfills the definition of a Round Trip or Circle Trip or normal/special fare Open Jaw trip, the Pricing unit must be assessed as a Round Trip, or Circle Trip or normal/special fare Open Jaw trip as applicable and must use half Round Trip fares. The use of One way fares is not permitted. For end-on combination of normal and special fares, completely separate the special and normal fare and assess the normal fare subjourney according to the flow chart.

Example: Travel: LON-MIL-STO-LON

Construction:

LON-MIL 1/2 RT  
 MIL-STO 1/2 RT 1 Pricing unit  
 LON-STO 1/2 RT

- OW fares are not permitted as travel is continuous, circuitous and returns to the same point
- CTM check LON-MIL RT and LON-STO RT
- Last fare component from country of origin

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- (b) If there is a common point/country on the routing, the journey may be broken into more than one Pricing unit provided these must be for return subjourneys using half Round Trip fares.

Example: Travel: HEL-BKK-TYO-SEL-TYO-BKK-HEL  
Construction could be:

HEL-BKK RT 1 Pricing unit  
BKK-TYO RT 1 Pricing unit  
TYO-SEL RT 1 Pricing unit

or

HEL-TYO RT 1 Pricing unit  
TYO-SEL RT 1 Pricing unit

or

HEL-BKK RT 1 Pricing unit  
BKK-SEL RT 1 Pricing unit

- (c) A return subjourney only occurs if the fare is broken more than once at the common point/country. The fare for travel between such fare break points must be priced as a Round Trip; Circle Trip or normal/special fare Open Jaw, as applicable, and must use half Round Trip fares.

Example: Travel: NYC-LON-JNB-MAN-NYC

Construction could be:

NYC-LON 1/2 RT  
NYC-MAN 1/2 RT 1 Pricing unit

LON-JNB 1/2 RT

MAN-JNB 1/2 RT 1 Pricing unit

- Both subjourneys fall within the definition of OJ

- (note that above journey could also be constructed as NYC-JNB RT)

- (d) If travel between such fare break points would require the use of One Way fares, this is not permitted.

Example: Travel: NYC-LON-RIO-JNB-MAN-NYC

Construction could not be:

NYC-LON 1/2 RT  
NYC-MAN 1/2 RT

LON-RIO OW

RIO-JNB OW - not possible

MAN-JNB OW

- Travel LON-RIO-JNB-MAN is not within the definition of an OJ

- Use of OW fares is not permitted.

- Total journey falls within definition of CT and may only be constructed as

a single Pricing unit.

- (4) If the routing of the journey fulfills the

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

definition of a normal/special fare Open Jaw trip, the Pricing unit shall be assessed as two half Round Trip fares, provided that, if there is a common point(s) or other points in either the country of origin or the country of turnaround or both, the fare may alternatively be assessed as a return subjourney from/to the common point(s) or other points and a One Way subjourney(s) for the domestic sector(s). If this type of pricing option is used then One Way Pricing units must be assessed using One Way fares and the return subjourney must be assessed using half Round Trip fares.

Example: Travel: KHH-TPE-SIN-TPE  
Construction could be:  
KHH-SIN 1/2 RT  
TPE-SIN 1/2 RT 1 Pricing unit  
or  
KHH-TPE OW 1 Pricing unit  
TPE-SIN RT 1 Pricing unit  
whichever is the lower.

Example 2: Travel KHH-TPE-JKT-DPS surface JKT-TPE  
Construction could be:  
KHH-DPS 1/2 RT)  
TPE-JKT 1/2 RT) 1 Pricing unit  
or  
KHH-TPE OW 1 Pricing unit  
TPE-JKT RT 1 Pricing unit  
JKT-DPS OW 1 Pricing unit  
or  
KHH-TPE OW 1 Pricing unit  
TPE-DPS 1/2 RT)  
TPE-JKT 1/2 RT) 1 Pricing unit  
or  
KHH-TPE 1/2 RT)  
TPE-JKT 1/2 RT) 1 Pricing unit  
JKT-DPS OW 1 Pricing unit  
whichever is the lower

Example 3: Travel GLA-MAN-ROM-LON  
Construction could be:  
GLA-ROM 1/2 RT)  
LON-ROM 1/2 RT) 1 Pricing unit  
or  
GLA-MAN OW 1 Pricing unit  
MAN-ROM 1/2 RT)  
LON-ROM 1/2 RT) 1 Pricing unit

(5) A) If the routing of a journey does not fulfill

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

the definition of Round Trip, Circle Trip or normal/special fare Open Jaw trip, it shall be assessed as follows, subject to the routing

- i) As a One Way journey
- ii) As a series of One Way subjourneys
- iii) As a Round Trip or Circle Trip journey with the surface sector assumed flown
- iv) If there is a common point/country - as a mix of a One way subjourney and a return subjourney (as shown in paragraph 3.c. above).

Example 1: Travel PAR-ATH

Construction: PAR-ATH OW 1 Pricing unit  
does not qualify for RT, CT, or normal fares OJ

Example 2: Travel PAR-BKK-VIE-ROM

Construction could be:

PAR-BKK	OW	1 Pricing unit
BKK-VIE	OW	1 Pricing unit
VIE-ROM	OW	1 Pricing unit

or

PAR-BKK	OW	1 Pricing unit
BKK-ROM	OW	1 Pricing unit

No return to country of origin, fares in direction of travel

Example 3: Travel STO-NBO surface SEZ-NBO-STO

Construction could be:

STO-NBO	OW	1 Pricing unit
STO-SEZ	OW	1 Pricing unit

or

STO-NBO	RT	1 Pricing unit
SEZ-NBO	OW	1 Pricing unit

or

STO-SEZ	RT	1 Pricing unit
---------	----	----------------

B) The One Way journey/subjourney(s) above must be assessed using One Way fares. The use of half Round Trip fares is not permitted. The Round Trip journey/subjourney(s) above must be assessed using half Round Trip fares.

(E) Limitations on indirect travel/inclusion of surface sectors on a through mileage calculator

(1) Limitation on indirect travel

a) General limitations: A fare component

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- must not include  
more than:
- I) One departure from fare component origin  
or
  - ii) One arrival at fare component destination  
or
  - iii) More than one stopover at any one  
intermediate ticketed point
- B) Additional limitations
- i) For a journey originating in Europe (not applicable for travel wholly within Europe) a fare component must not include more than one international departure and one international arrival at any ticketed point in the country where travel originates; provided that when the country of origin is transited, to/from another point in Europe; stopovers will not be permitted in such country.
    - Example 1: AMS-TYO-AMS-LON-RTM with a stopover in AMS between TYO and LON at a through TYO-LON fare is not permitted (country of origin is transited to another point in Europe)
    - Example 2: LON-NYC-LON-TYO with a stopover in LON between NYC and TYO at a through NYC-TYO fare is permitted (country of origin is not transited to/from another point in Europe)
  - ii) The restriction in (i) above shall also apply for the country of payment in Europe if not identical to the European country where travel originates.
    - Example 1: ZRH-MIL-TYO sold in MIL with a stopover in MIL at a through fare ZRH-TYO is not permitted. (country of sale is transited from another point in Europe)
    - Example 2: LON-NYC-X/LON-AMS-TYO sold in FRA with a stopover in AMS at a through fare NYC-TYO is permitted. (Country of origin is transited to another point in Europe but no

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- stopover is made)
- iii) A fare component within Area 1 or between Area 1 and Area 3 (via the Pacific) must not include more than one arrival and one departure at any ticketed point.
  - iv) For a journey originating in Area 1, no fare component within Area 1 may include more than one international departure and one international arrival at any ticketed point in the country where travel originates.
    - Example 1: POA-BUE-SAO-NYC-through fare not permitted because of two international departures from Brazil. Additionally, this restriction applies for the country of payment if not identical to the country where travel originates.
    - Example 2: NYC-SAO-BUE-POA sold in Brazil - through fare not permitted because of two international arrivals in Brazil which is the country of sale.
  - v) Applicable for travel commencing in Brazil (except for journeys wholly within South America) irrespective of where the fare is paid, the first international fare component must not include more than one Brazilian domestic flight coupon. Where more than one Brazilian domestic flight coupon is issued, the first international fare component must be assessed from the point immediately prior to the point of commencement of the international sector.
    - Example 1: BSB-RIO-NYC at a through fare BSB-NYC is permitted.
    - Example 2: POA-RIO-SSA-LIS at a through fare POA-LIS is not permitted. The international fare component must be assessed from RIO and POA-RIO charged separately.
    - Example 3: FLN-X/CWB-/CWB-IGU-XSAO-L on at a through fare

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

FLN-LON is not permitted.  
This first international  
fare component must be  
assessed from IGU and  
FLN-CWB-IGU charged  
separately.

- vi) For a Pricing unit originating in Germany, a fare component from/to a point in Germany must not include more than two domestic sectors in Germany.
  - vii) Journey application  
A journey on a ticket or conjunction ticket, at the time of original issue or when reissued, must not include more than four international arrivals and four international departures in any one country; except in Europe, not more than three international arrivals and three international departures in one country in Europe; provided for the counting of arrivals and departures surface sectors are considered to be flown
- (2) Inclusion of a surface sector on a through mileage calculation  
Surface of a transportation between two intermediate ticketed points must be included in the ticketed point mileage computation. In the absence of a single ticketed point mileage, the lowest combination of ticketed point sector mileage will apply.  
Exception: When travel between the following ticketed points are by surface transportation, and neither point is the point of origin or destination of the fare sector, the mileage between such points will be disregarded.

- (F) Construction rules for fare components
- (1) Mixed class travel (travel via different class of service)  
(Applicable to normal fares only).
- (a) Mixed class travel is when travel involves two or more classes of service:
- (i) On a sector(s) within a fare component or,
- (ii) In an entire fare component of a journey/subjourney with more than one fare component
- (b) The fare for entire fare component traveled in a higher class of service shall be the applicable fare for the class used.
- (c) All fares used in differential calculations will be based on qualifying fares.
- (d) The fare for mixed class travel within a fare component is assessed as the sum of the through fare in the lowest class of service used to assess the fare and, for each sector traveled in a higher class of service; the difference between the lowest applicable fare for the lowest class used for the sector concerned and the lowest applicable fare for the higher class used for the same sector. This process will be referred to as 'differential'.
- (e) If consecutive sectors within the fare component are flown in the higher class of service, the differential may be assessed as the difference between the applicable through fare for the lowest class of service used and the applicable through fare for the higher class of service for the sectors concerned.
- (f) HIPs must be checked when calculating differentials, however the BHC does not apply.

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

Note: Minimum checks are not applicable when calculating a differential.

- (g) The differential is assessed in the same direction as the fare used for the lowest class of service.
- (h) when half Round Trip fares are used, the differential is assessed using half round trip fares. When One Way fares are used, the differential is assessed using One Way fares.
- (i) Special fares may not be used in mixed class differential calculations.
- (j) The above rules may not be used to circumvent any stopover or transfer restrictions applicable to the through fare for the lowest class of service used.
- (k) The total fare for a fare component assessed with a class differential need not be higher than:
  - (i) The through fare for the highest class of travel, or
  - (ii) The sum of fares for sectors flown in different classes of service
- (l) Fare component checks (DMC, COM) will be applied:
  - (i) In the lowest class used of a mixed class component where a differential has been applied
  - (ii) In the applicable class used for an entire component flown in a higher class
- (m) Journey subjourney checks which apply to more than one fare component (CTM, COP, CPM, OSC, RSC) will be applied in the lowest class of service used and the class differential(s) amount(s) added to the resultant fare for the lowest class of service used
- (n) where two applicable same class fares exist in a market, the applicable fare used for the through fare component and any intermediate fares used for HIP check purposes to the breakpoint, is also the same fare used in calculating the differential, i.e. Y and y1 y2 fares exist in a market. If the lower level y2 fare is used as the HIP check fare, it must also be used when calculating the differential.
- (o) Class differentials may not be assessed over a fare break point.
- (p) (Applicable between Area 1 and Area 2) when the Transatlantic sector is flown in intermediate class and other sectors are in the same class or a lower class, the applicable through intermediate class fare shall be applied. A differential between

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- economy and intermediate class is not permitted.
- (q) (Applicable between Area 1 and Area 3 via the Atlantic) when the Area 2-3 and Transatlantic sectors are flown in intermediate class, the applicable through intermediate class fare shall be applied.
  - (r) (Applicable for travel between Area 1 and Europe only) when Transatlantic travel is flown in economy class and the intra-European sector is flown in intermediate class, the through applicable intermediate class fare applies, unless charging sector fares for the mixed class point(s) results in a lower fare. A differential between economy and intermediate class is not permitted.
  - (s) (Applicable via the Atlantic-Pacific Oceans for travel between Europe and south west Pacific) when the sector between Europe and Area 1 and the sector between Area 1 and the south west Pacific are flown in intermediate class, the applicable through intermediate class fare applies. A differential between economy and intermediate class is not permitted.
  - (t) (Applicable to Atlantic-Pacific travel between Europe and Japan/Korea) when the sector between Europe and Area 1 is in economy class and the sector between Area 1 and Japan/Korea is in intermediate class, the applicable through intermediate class fare applies. A differential between economy and intermediate class is not permitted.
  - (u) (Applicable to Atlantic-Pacific travel between Europe and south east Asia) when the sector between the last point of departure in Europe and the first point in arrival in area 3 are flown in intermediate class, the applicable intermediate class fare applies. A differential between economy and intermediate class is not permitted.
- (2) Surface sectors
- (a) Apply the through fare or the sum of fares over the sectors actually flown, whichever is lower.
  - (b) In the case of normal fare travel, where the mileage for an international surface break is greater than the ticketed point mileage over the routing traveled from origin of the journey up to the point of commencement of the surface break when normal fares are on both sides of the surface break and journey up to the surface break must be ticketed

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

separately.

Example: Travel: NYC-LON surface BKK-PAR-LON-NYC  
TPMs 3458 5919 5860 220 3458

Construction could be:

NYC-LON RT 1 Pricing unit

BKK-PAR OW 1 Pricing unit

PAR-LON OW 1 Pricing unit

\* notwithstanding separate pus, the TPM  
is undertaken from NYC

- (c) The surface break is measured using TPMs. If no TPM exists for the points concerned, the shortest operated mileage shall be used (i.e. MPM divided by 1.20); provided that in the event there is no shortest operated mileage, the ticketed point mileage shall be established by a combination of TPMs.
  - (d) Surface breaks in section e.7. And between Canada and the USA may be ignored.
- (3) Higher Intermediate Point
- (a) Normal fares
    - (i) If in any routing otherwise permissible at the direct route normal fare, there is a direct route normal fare(s) of the same class of service between any two ticketed points which is higher than the direct route normal fare between the fare construction points, the fare shall not be less than the highest fare referred to above (higher intermediate fare). In the case of fares which are established by seasonality (including blackout dates), or day of week or flight application, the check will be based on the applicable fare (by seasonality including blackouts, or by dates, or by day of week or by flight application).
    - (ii) If in any indirect routing otherwise permissible at the direct route normal fare plus a percentage, there is a direct route normal fare(s) of the same class of service between the fare construction points, the fare for the indirect route shall not be less than the highest fare referred to above (higher intermediate fare), and the surcharge percentage applicable to the through fare shall be applied to such higher intermediate fare.
    - (iii) When there is no direct route fare between two ticketed points, a fare must be constructed over an intermediate ticketed point in order to apply the

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- provisions of (i) and (ii) above.  
Note: The constructed fare is considered a 'direct route fare' and must be shown on the ticket as 'c/'.
- (iv) when comparing normal fares of the 'same class of service' in order to determine if there is a higher fare, the following sequence shall be followed:
    - (aa) sleeper seat fare is compared with sleeper seat; if no sleeper seat fare, compare with first class fare
    - (bb) First class fare is compared with first class; if no first class fare, compare with intermediate class fare (or next lower class fare)
    - (cc) Intermediate class fare is compared with intermediate class fare; if no intermediate class fare, compare with economy class fare; provided that where more than one economy class fare is published, compare with the highest economy class fare.
    - (dd) Economy class fare is compared with economy class fare
  - (v) when comparing normal fares, the comparison shall be made in the same direction as the fare component. When using half Round Trip fares the comparison shall be made using half Round Trip fares. When using One Way fares the comparison shall be made using One Way fares.
  - (vii) where more than one normal fare is published for the carrier and the class of service used, the lower/lowest level may be used subject to any stopover, transfer, seasonality, day of week limitations, or flight restrictions of the lower/lowest fare (excluding application of the stopover charges.)
  - (vii) In establishing the day of week fare level to be used for the HIP check, the application of the day of week fares shall be applied solely to the sector(s) for which the check is being made. The day of travel on such sector(s) shall be used to determine the day of week fare level for the HIP check.
  - (viii) In establishing the seasonal fare level to be used for the HIP check, the rule for the application of the seasonal fare

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

shall be applied solely to the sector(s) for which the check is being made. The seasonal rule for such sector shall be used to determine the seasonal fare level to be used for the HIP check. Where reference in a seasonal rule is to a specific segment of travel e.g. first international sector, the specific segment shall be assessed within the sector(s) for which the HIP level is being established.

Example: routing A-B-C-B-A  
1st fare component (A to C)  
- Fare A-C is a non-seasonal fare  
- Fare A-B is a non-seasonal fare  
- There are seasonal fares B-C with the rule that the first international sector determines the seasonal fare to be charged.  
- To establish the seasonal fare level to be used for the HIP check on the sector B-C the date of travel B to C will be used  
2nd fare component (fare in the direction from A to C)  
- Fare A-C is a non-seasonal fare  
- Fare A-B is a non-seasonal fare  
- There are seasonal fares B-C with the rule that the first international sector determines the seasonal fare to be charged.  
- To establish the seasonal fare level to be used for the HIP check on the sector C-B the date of travel C to B will be used.

- (ix) For the purpose of the higher intermediate fare check, when the ticket shows no stopover at both the unit origin and the unit destination point of a side trip which has been charged for separately (due to transfer connections on both occasions) a stopover shall be considered to be taken at such point unless the time interval between the arrival immediately preceding the side trip and the departure immediately

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

following the side trip does not constitute a stopover as defined in rule 1.

- (x) When an itinerary required checking fares in the next higher class of service due to rule/stopover restrictions, HIPS must be checked in the next higher class of service for all points on that fare component.
- (xi) When tickets are issued in the country of commencement of travel, a higher intermediate point check shall be applicable only at intermediate ticketed stopover point(s).  
The points checked are:
  - (aa) The point of origin to any intermediate stopover point; or
  - (bb) Any intermediate stopover point to the destination; or
  - (cc) Any intermediate stopover points to any other intermediate stopover point.

Exception 1: For the purpose of this rule, EC member states shall be considered as one country, provided that:

- (i) The journey is wholly within the Europe sub-area and all fare Construction points are in EC member states.
- (ii) The journey must commence in the country of the point of origin shown on the ticket.

Exception 2: Not used

Exception 3: For journeys originating western Africa, higher intermediate points check in each fare component shall be applied at all ticketed points in western Africa.

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

Exception 4: applicable for travel originating in Israel, HIP's will be checked on fare components from Israel to all ticketed points in the fare component whether there is a stopover or not. This does not apply to the HIP check from an intermediate point or an intermediate point to the fare Construction point.

Example: TLV-FRA-X/  
LON-NYC/TLV  
the HIP  
check is  
TLV-FRA;  
TLV-LON  
and  
FRA-NYC  
and though  
LON is a  
transfer  
point,  
TLV-LON is  
checked  
but  
LON-NYC is  
not.

Note: Cancelled

Exception 5:

Exception 6:

Exception 7: when travel originates in India and destined to Canada/USA, when stopovers taken in Europe or UK higher fares shall not be applicable from points in Europe/UK to Canada/USA.

(xii) For the purpose of this rule, when there is a surface break, the higher intermediate fare check applies to the point of arrival by air immediately preceding the surface sector and to the point of departure immediately following

Tariff: LX1 - CTA No. 496 DOT No. 782  
 Carrier: Swiss - LX

the surface sector, unless the time interval between the arrival and departure does not constitute a stopover as defined in Rule 1.

- (xiii) when tickets are issued outside the country of commencement of travel, a higher intermediate fare shall be applicable at all intermediate ticketed point(s).
- (b) Special fares
  - (i) A special fare may be applied if between either fare construction point and any intermediate ticketed point there is not higher normal fare for the same class of service than the normal fare between the fare construction points as determined in accordance with the normal fares section (a) above.
  - (ii) If there is a higher normal fare, as determined in accordance with paragraph a, above, the special fare for the component shall not be less than such higher normal fare, except:
    - (aa) If there is a special fare of the same type at the same level or a lower level on the sector for which the normal fare applies, the special fare from the origin to the destination (surcharged if necessary) shall apply, or
    - (bb) If there is a special fare of the same type at a higher level on the sector for which the higher normal fare applies, the special fare for the component shall not be less than such higher special fare (surcharged if necessary).
    - (cc) If there is no special fare of the same type on the sector for which the higher normal fare applies, the fare shall not be less than the lowest of any higher type of special fare within the same column as shown below:
    - (dd) In defining a 'fare of the same type', the comparison of special fares shall be limited to the class of service and

Column 1	Column 2	Column 3
Late booking fare or	GIT fare or	Group fare or
APEX fare or	Individual IT or	Excursion fare
PEX fare or	Excursion fare	
Excursion fare		

Tariff: LX1 - CTA No. 496 DOT No. 782  
 Carrier: Swiss - LX

- (ee) If there is more than one special fare of the same type on the sector for which the higher normal fare applies, the fare with conditions most similar to those of the special fares for the component shall be used for the comparison.
- (ff) All conditions attached to the special fare for the component apply.

- (4) One Way Backhaul Minimum
  - (a) This paragraph does not apply:

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- (i) For journeys wholly within Area 1
- (ii) For journeys wholly between Argentina, Brazil, Chile, Paraguay, Uruguay and Area 2
- (iii) For Pricing units wholly within Europe
- (b) This paragraph applies only when using normal or special One Way fares.
- (c) If in any fare component travel is via a higher rated intermediate stopover point, the fare for such fare component shall be the higher of:
  - (i) The applicable fare between the fare Construction points, or
  - (ii) The fare from fare component origin to the highest rated intermediate stopover point plus the difference between such fare and the direct route fare between the fare construction points.

Example: A-B-C-D

Fares:	A to B	NUC	50
	A to C		150
	A to D		140
	B to C		175
	B to D		160

Fare to be charged is:

	B to C	NUC	175
--	--------	-----	-----

or

	A to C	NUC	150
	Plus the difference between		
	A to C and A to D		10
	total NUC		160

whichever is higher
- (d) The One way backhaul check need not be applied for points which have been excluded as stated in section (3) (HIPs) above.
- (5) Directional minimum fare check (DMC)  
The following additional rules will apply.
  - (a) Normal fares
    - (i) One way fares: the fare to be charged shall not be less than the direct route One way fare for the highest rated pair of points applicable in either direction for the class of service used between any ticketed points within the fare component.
    - (ii) Normal Open Jaw fares: the fare to be charged shall not be less than the direct route half Round Trip fare for the highest rated pair of points applicable in either direction for the class of service used between any ticketed points within each fare component.

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- (iii) where more than one normal fare is published for the carrier and the class of service used, the lower/lowest level may be used.
- (b) Special One Way fares
  - (i) Only one fare component: the fare to be charged shall not be less than the highest One way direct route fare of the same type in either direction between any ticketed points within the fare component. In the absence of a fare of the same type, the next higher One way fare shall be used.
  - (ii) More than one fare component: the rule in (b)(i) above shall apply to each fare component.
  - (iii) Fare of the same type will be as defined in section (3)(b)(i)(dd).
- (c) Applicable fares  
the fares to be used shall be those applicable on the date of commencement of the outbound transportation or in the case of seasonal fares, those applicable on the date which determines the seasonal level to be used. This will apply in each component.
- (d) Exceptions  
The provisions in subparagraphs (a)(b) and (c) above will not apply:
  - (i) For transportation wholly within Area 1
  - (ii) For sales made in Area 1 for transportation commencing in Area 1
  - (iii) For sales made in Canada, USA/US territories for transportation to Canada, USA/US territories.
  - (iv) when travel originates in Benin, Burkina Faso, Cameroon, Central African Republic, Chad, Congo (Brazzaville), Equatorial Guinea, Gabon, Ivory Coast, Mali, Niger, Senegal or Togo and is sold in these countries.
  - (v) For sales made in EC member states for travel wholly within the Europe sub-area when all fare construction points are in EC member states.
- (G) Construction rules for Pricing units
  - (1) Round trip fares
    - (a) Unless otherwise specified, the fare for a Round Trip will be twice the outbound One Way fare.
    - (b) The reference to two fare components only, found in definitions, does not prohibit fares for end-on combination or side trips paid for

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- separately, being shown on the same ticket.
- (c) Round trip fares are combinable with other Round Trip fares.
- (2) Circle Trip fares
- (a) The fare for a Circle Trip shall be the lowest combination of half Round Trips in the direction of travel, beginning the calculation from the point of unit origin of the trip; provided that for any fare component which terminates in the country of unit origin, the fare applicable to such fare component from the country of unit origin shall be used.
  - (b) Circle Trip Minimum (CTM)
    - (i) (Not applicable for travel commencing in Australia/New Zealand other than within Area 3: the fare for a Circle Trip (excluding any side trip which has been charged as a separate Pricing unit) shall not be less than the direct route normal or special Round Trip fare, the highest rated pair of points applicable to the class of service used from the point of unit origin to any stopover point on the route of travel.
    - (ii) Cancelled
    - (iii) where more than one normal fare is published for the carrier and the class of service used, the lower/lowest level may be used.
    - (iv) when there are Round Trip fares from the point of unit origin to any stopover point, which differ according to carrier(s) used outbound and inbound the fare to be used for the check shall be the lower of such Round Trip fares.
    - (v) when checking the Circle Trip Minimum fare when special fares are used, the comparison is the same as provided in (3)(b)(ii)(dd); provided that when no special direct Round Trip fare is available from the point of unit origin to any higher rated normal fare stopover point, the total fare shall not be less than the direct Round Trip normal economy class fare from the point of unit origin to such point.
    - (vii) The CTM check is not applied to a Pricing unit, which contains a mixture of normal and special fares combined on the outbound and inbound portions.
    - (vii) The CTM check is not applied to a Pricing unit consisting of government

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- and/or military fares.
- (viii) The CTM check is not applied to a Pricing unit consisting of a combination of government and/or military fares and normal fares.
- (ix) The CTM check need not be applied to points, which have been disregarded under provisions of the higher intermediate point rule.
- (c) Round the world Minimum (RWM)  
The rule does not apply to any joint round the world fares published by rule separately in this or any other tariff.
  - (i) Round the world fares consist of continuous EB or WB travel commencing from and returning to the same point which involves only one crossing of the Atlantic Ocean and only one crossing of the Pacific Ocean.
  - (ii) Unless otherwise indicated, only normal fares may be used to construct a round the world itinerary. One way special fares must not be used to calculate fares for round-the- world travel.
  - (iii) For Round the world travel originating in Australia/New Zealand, the provisions of subparagraph iv) below shall not apply.
  - (iv) The total fare for around the world journey (excluding any side trip charged separately) shall not be less than the lower of the two direct route normal Round Trip fares applicable to the class of service used from the point of unit origin to all stopover point(s) in both global directions. If more than one such lower fare exists, the highest of these lower fares is used for the RWM.
  - (v) where more than one normal fare is published for the carrier and the class of service used the lower/lowest level may be used for the minimum check.
  - (vii) when there are Round Trip fares with different global indicators from the point of unit origin to any stopover point, the fare to be used for the check must be that applicable to the flown itinerary.
  - (vii) when the flown itinerary incorporates such different global indicators, the fare must not be less than the lower of such Round Trip fares from the point of unit origin.

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

Example: Travel

CHI-ZRH-BOM-CMB-HKG-YVR-CHI  
Calculation based on: CHI-BOM at  
fare and CHI-BOM PA fare

at	NUC	PA
CHI-ZRH	1800	none
CHI-BOM	3100	3300
CHI-CMB	3830	3200
CHI-HKG	4600	2300
CHI-YVR	none	285 (WH)

- . The missing CHI-ZRH PA and CHI-YVR at fares need to be constructed by lowest combination. However, as the resulting fares would most likely be higher than existing fares in the opposite global direction, they are ignored.
- . The highest RT fare between each city pair is disregarded.
- . Of the remaining lower RT fares, the highest RT fare CHI-CMB PA constitutes the RWM.
- . If the calculation is not higher than this amount, the itinerary must be raised to the highest RT fare (CHI-CMB).

(3) Open jaw fares

(a) Normal Fare Open Jaw

Common Point Minimum check (CPM)

(i) The fare for a normal fare Open Jaw Pricing unit shall be the sum of the applicable Round Trip fares for both international legs of the Open Jaw, assessed from the country of unit origin.

- (ii) (aa) If there is a surface sector in the country of unit origin and there is a Common Ticketed Point(s) in the country of unit origin, the fare shall not be less than the highest applicable fare from the common point(s).
- (bb) If there is a surface sector in the country of unit turnaround and there is a Common Ticketed Point(s) in the country of unit turnaround, the fare shall not be less than the highest applicable fare to the common point(s).
- (cc) If there is a Common Ticketed Point(s) in both the country of

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

unit origin and the country of unit turnaround, the fare shall not be less than the highest applicable round or Circle Trip fare from the Common Ticketed Point(s) in the country of unit origin to the Common Ticketed Point(s) in the country of unit turnaround.

- (dd) In applying the above, for travel origination in Canada or USA, the surface break may be permitted between countries in the Europe sub-area provided:
- (i) Travel in both directions is via the Atlantic
  - (ii) The application of (a)(i) And (ii) above, the CPM check shall only apply to a common point(s) in the country of origin and/or the country of the terminal point of a fare component. It shall not apply to intermediate common point in other countries

Example: YMQ-LON-ZRH XXX  
ROM-ZRH-LON-YMQ  
the CPM check is  
to be applied  
YMQ-ZRH but not applied  
to YMQ-LON as LON is not in  
the country of a terminal  
point of a fare component.

- (ee) The reference in the Normal Fare Open Jaw definition referencing two international fare components does not preclude fares for end-on combinations or side trips paid for separately being shown on the same ticket.

- (b) Special Fares Open Jaw  
Except as specified in a fare rule, the fare for an Open Jaw shall be the sum of half the applicable Round Trip fares for both legs of the Open Jaw; provided that when a fare component terminates in the country of unit origin, the fare applicable from the country of unit origin shall be used.

Exception: For travel originating and terminating in Europe (except for travel wholly within Europe): where an Open Jaw applies between countries in Europe, where a fare component terminated in the

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

country of unit destination the  
fare applicable from the country  
of unit destination shall be  
used.

Example: AMS-WAS-MAD  
Fare construction: AMS - WAS  
1/2 RT PEX  
fare  
MAD - WAS  
1/2 RT PEX  
fare

(4) One way fares

- (a) For One Way journeys, One way fares must be used
- (b) Country of unit origin check (COM): when one way Pricing units are used and travel on the second or subsequent international pricing unit is via a country from which a previous Pricing unit has already been assessed, the fare for such Pricing unit shall not be less than the highest international fare from any ticketed point in the country where the previous Pricing unit commenced to any other ticketed point in such unit. This rule applies whether or not a stopover is made at the point(s) in the country where the previous Pricing unit commenced.

- (c) For One Way subjourneys, when the respective countries of both origin and destination points of a Pricing unit have been used for the assessment of a previous Pricing unit, the direction of the last Pricing unit will be assessed in the reverse direction of travel.

Example: GVA-LON-ATL-X/ZRH-LON using OW fares for each sector both ZRH and LON have been used to assess a previous Pricing unit so the direction of the Pricing unit for the sector ZRH-LON shall be from LON to ZRH.

(H) Minimum check for consecutive normal fare Pricing units

- (1) Return subjourneys check (RSC) Not applicable for travel to/from Canada
  - (a) The RSC will not apply between consecutive Pricing units for return subjourneys.
  - (b) If the total for the journey contains any consecutive normal fare Pricing units for return subjourneys a minimum check will be applied. The total fare assessed for the consecutive Pricing units (excluding any side trips charged separately) must not be less than the direct route normal Round Trip fare,

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

applicable to the class of service used from the unit origin of the first consecutive Pricing units, to the highest rated stopover point in any subsequent consecutive pricing units.

Example: Travel  
MAD-ROM-ATH-TYO-SYD-ATH-ROM-MAD

Construction could be:

MAD-ROM	RT	1 Pricing unit
ROM-ATH	RT	1 Pricing unit
ATH-TYO	1/2 RT	
TYO-SYD	1/2 RT	1 Pricing unit
ATH-SYD	1/2 RT	

- . 3 consecutive Pricing units (RT > RT > CT)
- . All are stopover points
- . From unit origin of the first consecutive Pricing unit to any stopover point in any subsequent consecutive Pricing unit, MAD-SYD being the highest direct route Round Trip fare from mad
- . Minimum check - the total fare of these consecutive Pricing units must not be less than MAD-SYD RT fare (which is the highest RT fare)

Exceptions:

- (i) (aa) If the first Pricing unit is for an origin Open Jaw the direct route Round Trip fare shall be assessed as the sum of half the direct route Round Trip fare from the unit origin of such Open Jaw Pricing unit and half the direct route Round Trip fare from the unit destination of such Open Jaw Pricing unit to each stopover point in any subsequent consecutive pricing units.

Example: Travel:  
NCE-BRU-NBO-JNB-NBO-BRU-LYS

- . Minimum check - total fare for Pricing units must not be less than the sum of 1/2 RTs  
NCE-BRU > LYS-JNB, whichever is the highest.
- (bb) If any subsequent Pricing unit is for an origin Open Jaw the Pricing unit will be considered as a Round Trip Pricing unit and 1.B above will apply (i.e. close the surface sector)

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

- (ii) If the last Pricing unit is for a turnaround Open Jaw trip the direct route Round Trip fare to stopover/terminal points in the open jaw Pricing unit will be half the direct route Round Trip fare from the unit origin of the first consecutive Pricing unit to the highest rate stopover/terminal point in the open jaw Pricing unit on the outbound component and half the direct route Round Trip fare from the unit origin of the first consecutive Pricing unit to the highest rated stopover/terminal point in the Open Jaw Pricing unit on the inbound component.

Example:

Travel: BRU-NBO-LUN-DKR surf  
CPT-JNB-LUN-NBO-BRU

Construction could be:

BRU-NBO	RT	1 Pricing unit
NBO-LUN	RT	1 Pricing unit
LUN-DUR	1/2 RT	
LUN-CPT	1/2 RT	1 Pricing unit

. Minimum check - total fare for the Pricing units must not be less than the BRU-LUN RT or the sum of 1/2 RTs BRU-CPT > BRU-CPT, whichever is the highest

- (iii) If both the first and any subsequent consecutive Pricing units are for origin/turnaround Open Jaw trips respectively then both i and ii above apply.
- (c) where more than one normal fare is published for the carrier and the class of service used the lower/lowest level may be used.
- (d) (i) when there are Round Trip fares with different global indicators from the point of origin to any stopover point, the fare to be used for the check must be the applicable fare to the flown itinerary.
  - (ii) when the flown itinerary incorporates such different global indicators (including Round the world journeys), the fare must not be less than the lower Round Trip fares from the point of origin.
- (e) when there are Round Trip fares from the point of origin to any stopover point which

Tariff: LX1 - CTA No. 496 DOT No. 782  
 Carrier: Swiss - LX

differ according to carrier(s) used on the outbound and the inbound journeys, the fare to be used for the checks shall be the lower of such Round Trip fares.

- (2) One way subjourneys check (OSC) Not applicable for travel to/from Canada
  - (f) If there is a surface break between two return subjourneys, the minimum check is not applied.
  - (g) Multiple Pricing units assessed from a common Pricing unit are not considered consecutive to each other and the minimum check is not applied to these Pricing units.
  - (h) Example: Travel:  
 TYO-SFO-LON-SFO-TYO-HKG-BOM-HKG-TYO  
 Construction could be:  
 TYO-SFO RT 1 Pricing unit  
 SFO-LON RT 1 Pricing unit  
 TYO-HKG RT 1 Pricing unit  
 HKG-BOM RT 1 Pricing unit  
 . Minimum check is applied twice: TYO-SFO > SFO-LON and TYO-HKG > HKG-BOM  
 . There is no minimum check other than above.

(Not applicable to journeys to/from via the US/US territories)

- (a) A specified through fare must not be undercut by a combination of fares
- (b) The OSC will apply between consecutive Pricing units for One Way subjourneys.

Example 1 (SITI):

CPH-BKK			2200 NUC

- . CPH-DEL plus DEL-JED < 1500 NUC. Compared to CPH-JED results in a plus of 100 NUC.
- . CPH-JED plus JED-BKK < 2075 NUC. Compared to CPH-BKK results in a plus of 125 NUC.
- . The itinerary must be raised 225 NUC shown separately in the fare calculation.

	H	125

- (c) where more than one normal fare published for the carrier and the class of service used the lower/lowest level may be used.
  - (d) If the OSC is applied and two or more pricing units are merged, the new single Pricing unit is used for any further fare checks.
  - (e) If in a series of Pricing units for One Way subjourneys there is a surface break between fare construction points the OSC is applied to the Pricing units for One Way subjourneys up to the start of the surface break and then applied separately from the point at which air transportation recommences (even if this point is a previous fare construction point)  
 Example: Travel: MAD-NBO-DAR surface  
                   NBO-LUN-JNB
    - . One way fare components MAD-NBO, NBO-DAR, NBO-LUN, LUN-JNB
    - . The OSC is performed on MAD-DAR and NBO-JNB
- (3) Mixture of return subjourneys and One Way subjourneys
- (a) when a journey comprises Pricing units that are a mixture of Pricing units for return subjourneys and One Way subjourneys no overall checks will be applied. However, if there are two or more consecutive pricing units using the same fare types, (half round trip or One Way) then the applicable checks will be applied for those Pricing units. I.e. if there are two or more consecutive Pricing units for One Way subjourneys the OSC will be applied between those Pricing units. If there are two or more consecutive pricing

Tariff: LX1 - CTA No. 496 DOT No. 782  
Carrier: Swiss - LX

units for return subjourneys the RSC will be applied from the unit origin of the first of such Pricing units to all stopover points within the consecutive Pricing unit(s) and the OSC will not be applied.

Example: Travel: LON-PAR-AMS-HKG-TYO-HKG-AMS

Construction could be:

LON-PAR	OW	1 Pricing unit
PAR-AMS	OW	1 Pricing unit
AMS-HKG	RT	1 Pricing unit
HKG-TYO	RT	1 Pricing unit

. OSC applies on the consecutive OWs LON-PAR and PAR-AMS; RSC applies on the Consecutive RTs AMS-HKG and HKG-TYO

Example: Travel: LON-PAR-HKG-TYO-HKG surf PAR-LON

Construction could be:

LON-PAR	RT	1 Pricing unit

## Rule 200 Children's and Infants' Fares

Note 1: As used herein, "adult" shall mean someone at least 12 years of age.

Note 2: The provisions/percentages in paragraphs (a), (B), (c) and (d) of this rule apply only to the extent provided/specified in the applicable fare rule making reference to this rule.

- (A) Accompanied children (infant(s)) under two year of age  
(1) when accompanied by an adult passenger, children who are less than two years of age and not occupying an individual seat will be assessed 10 percent of the applicable adult fare.

Age limits

Age limits referred to in this rule shall be those in effect on the date of commencement of travel. However, infants who will reach their second birthday during the journey will, in accordance with safety regulations, be required to occupy a seat, paying the child's or lowest applicable fare in accordance with paragraph (E) below, for those sectors to be traveled after reaching two years of age. When a separate seat is requested or required on a portion of the itinerary, combination of an infant no-seat fare(s) and an infant booked seat fare(s) or child's fare(s) is permitted within an itinerary but not within a fare component.

- (2) 75 percent of the applicable adult fare for children under two years of age occupying individual seats or children in excess of one accompanying an adult passenger unless otherwise specified in the fare rule.

- (B) Accompanied children two years of age or over, but under 12  
When accompanied by an adult passenger the fare for children who have reached their second birthday but have not reached their twelfth birthday on the date of commencement of their outward journey, will be 75 percent of the applicable adult fare unless otherwise specified in the fare rule.

- (C) Unaccompanied children under twelve years of age (see also Rule 24 (c))  
Children who meet the requirements for travelling unaccompanied, as outlined in Rule 24 (c)  
Carriage of unaccompanied minors, will be assessed 75 percent of the adult fare for which their itinerary qualifies unless otherwise specified in

the fare rule.

Note: If a child is unaccompanied on only a portion of the journey, the applicable children's discount shall be assessed on fare components where the child is accompanied, and 100 percent of the adult fare shall be assessed on fare components where the child is unaccompanied. Any fare component that is comprised of partially accompanied and partially unaccompanied travel will be considered to be unaccompanied and 100 percent of the full adult fare shall be assessed.

Exception: Unaccompanied children under five years of age on the date of commencement of their outward journey will not be accepted for carriage via LX.

- (D) Other conditions for accompanied/unaccompanied children
- (1) Unless otherwise specified in an applicable fare rule, children's and infants' discounts apply to any charge or surcharge and any cancellation or refund fee.  
Exception: Children's and infants' discounts will not apply to security surcharges, if any.
  - (2) "Adult passenger" as used herein, shall mean a passenger 12 years of age and older.
  - (3) When Rule 200 is not applicable to a fare, as indicated in paragraph (g) of a fare-rule, the full adult fare will apply instead of the discounted fares stated in this rule; provided that the passenger qualifies for such airfare in accordance with the other provisions of the fare-rule.
